

Dongen, April 2016

RoHS II Declaration

According to the European RoHS II Directive 2011/65/EU, hereby we, **The Best Solution**, declare that the following chemical elements and related compounds:

- Lead (Pb)
- Mercury (Hg)
- Hexavalent Chromium (Cr (VI))
- Cadmium (Cd)
- Polybrominated biphenyls (PBB)
- Polybrominated diphenyl ethers (PBDE)

are not used as added chemicals or compounds in all thermoplastic or thermosetting materials manufactured, used or processed by **The Best Solution**, consisting in:

- Coiled cords Type "SP-" and "NY-"
- Power cords and cables Type "AS-"

We remark that this declaration:

- is based on information made available from our suppliers and represents the state-of-art at this date.
- is not applicable to slow moving materials and supplies stored since long time.
- is not applicable if the material is supplied by the customer and TBS only performs the labour.

Hoping to have informed you properly we remain,

Best regards,

J. de Pont
Director
